THE RITZ-CARLTON
BENGALURU

DELEGATE BROCHURE

GHA Hosts **BEST OF ESSO**

Making its Indian showcase in

BENGALURU

THE SILICON VALLEY OF INDIA

ABOUT BEST OF ESSO

Best of ESSO brings the most impactful research, practice-changing studies, and key discussions from the **European Society of Surgical Oncology (ESSO)** Annual Congress to a focused Indian platform. As a leading global organisation advancing surgical oncology through education, research, and multidisciplinary collaboration, ESSO serves as a catalyst for innovation in cancer surgery and patient care.

Its annual congress showcases cutting-edge surgical techniques, evolving treatment paradigms, and high-quality clinical evidence that continue to influence global oncology practice. Curated specifically for the Indian clinical landscape, Best of ESSO goes beyond summarising global data. It enables surgical oncologists to critically interpret evidence, assess its relevance, and explore its practical application in real-world settings.

Through expert-led discussions and peer exchange, the platform fosters deeper clinical insight, encourages contextual decision-making, and bridges the gap between international advancements and local practice. The initiative ultimately aims to strengthen surgical oncology outcomes by aligning global knowledge with India's unique healthcare realities.

ABOUT THE HOST

GLOBAL HEALTH CARE ACADEMY (GHA)

Transforming Healthcare Education with Tech and Expertise

Global Healthcare Academy (GHA) stands as India's pioneering Med-Ed Tech Academy, dedicated to building the future of healthcare. Our mission? **Empowering competent and compassionate professionals** who thrive in the ever-evolving medical landscape.

Bridging the Skills Gap:

We recognize the disconnect between traditional healthcare education and industry demands. GHA actively bridges this gap by:

- Leveraging technology: We integrate cutting-edge solutions throughout our learning process, enhancing engagement and accessibility.
- Faculty expertise: Our instructors are renowned medical professionals, blending academic knowledge with real-world experience.
- Case-based learning: We immerse students in real-life scenarios, fostering critical thinking and practical skills.
- Practice-oriented approach: Our methodologies equip graduates to hit the ground running, prepared to excel in their chosen fields.

A Multifaceted Learning Experience:

- GHA caters to diverse needs through five dedicated verticals:
- Allied Healthcare: Paramedical training programs to equip future healthcare assistants.
- Continuing Medical Education (CME): Upskilling and reskilling courses for healthcare professionals.
- Global Dental Academy (GDA): Specialized programs for aspiring and established dentists.
- Global Healthcare Publishing (GHP): Disseminating valuable knowledge through healthcare publications.
- GConvene: Facilitating knowledge exchange and professional development through industry events.

Guided by Leaders, Driven by Passion:

- GHA is led, managed, and advised by a renowned team of doctors and healthcare professionals, ensuring the highest standards of education and industry relevance.

Specialists

Postgraduate Students
& Fellows

ABOUT

THE HOST CITY - BENGALURU

A multicultural city, Bangalore has experienced a dramatic social and cultural change with the advent of globalization and expansion of the information technology and business process outsourcing industries in India. Since the late 1990s, Bangalore has been known as the Silicon Valley of India and recently earned a new tag i.e. The Start-up Capital of India. Owing to its business-friendly environment a vast number of ex-pat population study, work, and live in India.

Bangalore, a city in southern India and the capital of the Indian state of Karnataka is the most sought-after healthcare destination within India with its unique social scenario, wide use of the English language, world-class healthcare infrastructure, and affordable healthcare, and connectivity with the rest of world. e-Medical visas are offered to medical tourists from 166 countries. This generous approach by the Government of India has helped needy patients from abroad to reach out to the Indian hospitals. Hospitals in Bangalore are equipped with modern healthcare infrastructure and are on par with European and US hospitals. Healthcare professionals in Bangalore are well known for their skills and therapeutic care. The presence of such reputed healthcare providers makes medical tourism in bangalore (India) makes more attractive among foreign healthcare travellers.

Welcoming nature of the local residents of Bangalore made it the most cosmopolitan city in India.
